

FEUERBACH QUARTETT
TECHNICAL RIDER „SUMMER IN THE CITY“

We provide:

2 violins, 1 viola, 1 cello

4 x dpa „d:vote 4099“ microphones incl. holder

1 electric violin (Yamaha SV120) incl. effects (distortion, reverb)

1 portable keyboard (Roland AX-Edge or similar)

2 percussion pads (Roland SPD::One Kick)

1 glockenspiel

additional wind- and percussion instruments, such as recorder, harmonica, kazoo, rain maker, ...

We require on stage:

1 piano stool or chair without armrests for the cellist

1 small table at the edge of the stage to deposit instruments (glockenspiel!)

4 XLR inputs with 48V phantom power each (for our dpa instrument microphones)

4 DI boxes (jack) for keyboard, electric violin and both percussion pads

2 sockets on stage (for pedal board and percussion pads)

2 microphones + adjustable stands + cables (or link) for moderation and vocals

at least 4 XLR cables of sufficient lengths for our dpa instrument microphones

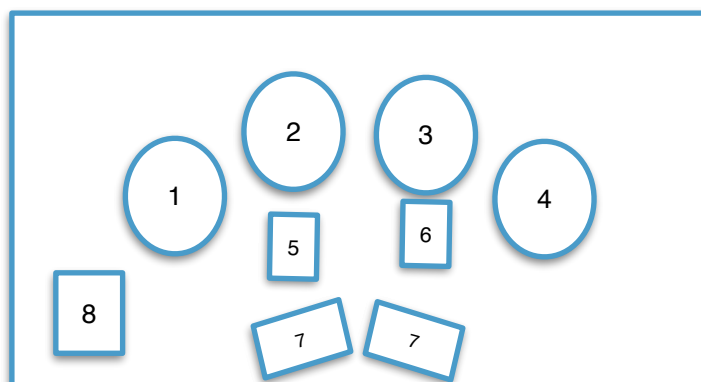

at least 6 jack cables of sufficient lengths for keyboard, electric violin and percussion pads

2 independent monitors

optional/rarely needed: 1 microphone + stand + cable for the glockenspiel (table!)

8 AA batteries (for the case of emergency)

Positions on stage:

1: violin 1 (standing)

2: violin 2, electric violin, portable keyboard (standing)

3: cello, kazoo, harmonica, vocals (sitting)

4: viola (standing)

5: microphone for moderation

6: microphone for moderation, vocals, kazoo, ...

7: monitors

8: table for glockenspiel

Lighting:

background lighting in changing colours and combinations (blue, red, green, yellow, pink, ...)
4 white spots
decent haze
4 moving heads heads

Recommended light settings:

full black out (all lights off/dark)
full black out + single spot light (on position 3)
gradual brightening and dimming

At the day of the performance, a setlist with notes will be provided to all technicians and engineers. Lighting can be rehearsed during the soundcheck.

Please note:

This rider is to be considered a recommendation.
